**FISCAL IMPACT STATEMENT**

**LS 6130**

**BILL NUMBER: SB 78**

**DATE PREPARED:** Nov 13, 1998

**BILL AMENDED:**

**SUBJECT:** Medicaid disability.

**FISCAL ANALYST:** Alan Gossard

**PHONE NUMBER:** 233-3546

**FUNDS AFFECTED:** X GENERAL  
DEDICATED  
X FEDERAL

**IMPACT:** State

**Summary of Legislation:** This bill amends the Medicaid definition of a disabled person to include a person who has a physical or mental impairment, disease, or loss that appears reasonably certain to result in death or that has lasted or appears reasonably certain to last for a continuous period of at least twelve (12) months without significant improvement. (Current law requires that the impairment continue throughout the lifetime of the individual.)

**Effective Date:** July 1, 1999.

**Explanation of State Expenditures:** A preliminary estimate of the additional state costs associated with this provision is approximately \$68 million per year.

This bill changes the medical criteria for disability used in the state Medicaid program to match the definition used in the Supplemental Security Income (SSI) program. Indiana is one of two states in the country that has a medical definition for disability that is more restrictive than SSI. There are currently 20,600 SSI recipients who do not receive Medicaid. The total cost of serving these individuals through the Medicaid program is estimated to be \$177 million based on an average annual Medicaid cost of \$8,600 for a disabled person. The state share of these costs is estimated to be about \$68 million annually (state/federal shares = 38.69%/61.31% for FY99). This includes an estimated \$650,000 in administrative savings. The federal dollars returned to the state are estimated to be about \$109 million per year.

**Explanation of State Revenues:** See Explanation of State Expenditures, above, regarding this bill's impact on Medicaid program expenditures that are cost-shared with the federal government.
